The B & I (Beginning and Inner) Rules

This are mostly used when signifying a set of words with a possibility of having different meaning if put together. For instance, when referring to Names we need to use titles and honorifics in such a way that they need to explain one's authority or gender and such and such. In the instance, Mr. Shamm Kidane (አቶ ሸም ኪዳነ), these words refer to one person so we need to tag them in such a way:

አቶ	as	O		
ሸም	as	B-P	not	P
ኪዳነ	as	I-P	not	P

Other problems can be generated when referring to organization's names.

E.g., World's Health Organization (ውድብ ጥዕና ዓለም) should be tagged as following:

ውድብ	as	B-OR		
ጥዕና	as	I-OR	not	O
ዓለም	as	I-OR	not	B-L

E.g., "Alphabet's Google declared..." Should be tagged as:

Alphabet's	as	B-OR		
Google	as	B-OR	not	I-OR

For names of places or species similarity mistakes can occur.

E.g., Adi Hallo Dam (ዲጋ ዓዲ ሃሎ) should be tagged as:

ዲጋ	as	B-L	not	B-ART
ዓዲ	as	I-L	not	B-L
ሃሎ	as	I-L	not	I-L

E.g., African Elephant (አፍሪቃዊ ሓረማዝ) should be tagged as following.

አፍሪቃዊ	as	B-B	not	B-MISC (race)
ሓረማዝ	as	I-B	not	B-B

For referring dates some of the rules include:

E.g., “ገቦለት 15 ወርሒ ሕዳር ሰዓት 5:00 ቅድሚ ቀትረ” which means “On the 15th of November at 5 in the morning.”

ገቦለት	as	B-CR		
15	as	I-CR	not	B-N
ወርሒ	as	I-CR	not	B-L (same writing for the celestial body moon)
ሕዳር	as	I-CR		
ሰዓት	as	I-CR	not	B-MISC (the same writing for unit of time hour)
5:00	as	I-CR		
ቅድሚ	as	I-CR		
ቀትረ	as	I-CR
